JAP TORPEDO BOATS ARE REPORTED SUNK

They Struck Mines in Port Arthur Harbor.

The Russians Claim That There Will Be No Real Fighting Until Late in October.

A NUMBER OF SKIRMISHES

London, Sept. 28.—The Vladivostok correspondent sends a report that two Japanese torpedo boats and a Japanese steamer were sunk by mines near Port Arthur during the last few days. A cruiser is said to have been seriously damaged in like manner.

TALK OF PEACE. Rome, Sept. 28.—The report that Premier Cioletti would meet the German Chancellor, Count von Buelow, at Hamburg, presumably to discuss the matter of peace in the far east has given rise to a number of other reports. One of these is that Gobetti has received a telegram from King Victor which is said to have announced the receipt by the king of an autograph letter from the Mikado.

BATTLE OF MUKDEN.

St. Petersburg, Sept. 28.—It is expected here that the battle of Mukden will occur to the east and northeast of the city, between奉天 and Shinkan. The Japanese are marching toward the former point along good roads from Yen-Tai. The Russians according to dispatches received, have a front 24 versts long between Liao river and a point north of Sun King. Gen. Knobels' main body left the vicinity of Yen-Asi Satun day.

KUROPATKIN APPROVES.

St. Petersburg, Sept. 28.—The czar has sent a most affectionate letter to Gen. Kuropatkin. The latter, in replying to the message, gives unreserved approval of the appointment of General Truppenberg to command a second Manchurian army.

REVIEWING TROOPS.

St. Petersburg, Sept. 28.—The czar, accompanied by Grand Duke Michael, left for Odessa and other south Russian towns today to review the troops about to start for the far east.

ABSENCE OF NEWS.

St. Petersburg, Sept. 28.—The war commission adjourned without issuing further news from the front. A Mukden telegram to the Berlin Lokal Anzeiger, reporting that the Japanese had crossed the river fifty miles above the city is believed to refer to scouting parties of Japanese whose presence there was recorded in Associated Press dispatches of the 26th. The movement of the Japanese forces on Liao river, which was reported in a dispatch from Gen. Sakurada to the general staff on Sept. 26th, is all the more significant since Shinkan is the starting point of the leading to Tie Pass, Mukden and Siminlin. The announcement that the Russians are fortifying Fakoman, twenty-five miles northeast of Mukden, shows that Kuropatkin is preparing to check a thinking movement on Tie Pass, from the west in case Siminlin should have to be evacuated.

The entire absence of news from Port Arthur, it is feared, indicates a closer blockade there. Hitherto dispatches from Gen. Stroessel have been coming semi-weekly.

The admiral has not received any details of the reported sea fight off Aniva, the southwestern extremity of Sakhalin. The Vladivostok squadron, it is understood, is still in the harbor. The commanding at Aniva was probably a Japanese attack on blockade runners.

THREATENED ATTACK.

Mukden, Sept. 28.—By way of Peking, Russian cavalry west of the railroad report an important Japanese movement and a threatened attack. No change eastward is reported. Four divisions of Japanese remain at Bentziapu. The divisions are supposed to be near Yen-tai mines and two others west of them. General Mistchenko reports that he penetrated to the Yen-tai mines and found only small detachments of Japanese there.

BUILDING PONTOONS.

St. Petersburg, Sept. 28.—Gen. Kuropatkin today made the following report

LOCAL OPTION AT BENTON NO MORE

Special Judge Flournoy Knocks It Out There Today

Petitions Were Not Filed In Open Court, and Indictments are Invalid.

SALOONS MAY BE STARTED

Attorney J. C. Flournoy who is special judge at Benton, Marshall county, in the absence of Circuit Judge W. M. Reed, this morning knocked out the local option law in Benton predict by declaring the local option invalid. The decision was based on a technicality but this will have to stand until another local option election can be had, and it is said will apply at once for saloon license in Benton.

The decision was rendered when the case of A. A. Nelson, charged with selling liquor in violation of the local option laws, came to trial this morning.

Judge W. A. Berry, of Paducah, represented the defendant and moved that the indictment be dismissed as the petition filed by the persons wanting a local option vote was not filed in open court as it should have been. Judge Flournoy held that the petition must necessarily be filed in open court and inasmuch as it had not been, he would have to decide against the town and ordered the indictment dismissed against Nelson.

A singular incident in connection with the case is that Judge Berry acted once for the local option people when Judge Flanshaw occupied the bench, and Judge Flanshaw held the view was valid. Judge Berry has thus secured a decision for both sides.

Judge Flournoy has today two similar cases to try in the Hardin and Marion county precincts. It is said these petitions were filed in open court as a similar decision to that rendered this morning is improbable in Hardin and Marion.

BONDS TO BE BURNED.

The old bonds which have been refund ed in New York City, are expected here tomorrow. When they arrive a call for a meeting of the fiscal court will be made to destroy the bonds. The bonds will be burned before the court by the treasurer and county clerk.

No, Gordonia, a reporter isn't necessary a man who originates reports.

TO THE czar:

"The Japanese vanguard remain in the same position, east of the railway. Small offensive parties were repulsed by the Russian cavalry. The Japanese have concentrated at Yen-Tai mines. Pontoon are being built to laterocede at Washington to have the gold standard changed to diamonds as a medium of exchange."

ATTACKED JAPANESE.

St. Petersburg, Sept. 28.—Gen. Kuropatkin reports that Ural Cossacks during the night attacked a Japanese camp and the Japanese were thrown into a state of panic. The Cossacks also launched half a squadron of the Japanese who sustained considerable loss.

PASSED THE BOSPHORUS.

Constantinople, Sept. 28.—The Russian volunteer fleet steamer Nijni Novgorod passed through the Bosphorus yesterday bound for Canada, Island of Crete, and thence to Port Said, where she will await orders. The Nijni Novgorod flew the Russian commercial flag and carried no arms or ammunition.

NO "REAL" FIGHTING.

Rome, Sept. 28.—The Russian embassy today issued an authoritative announcement denying that mediation was contemplated between the belligerents. The announcement states that the real fighting will not commence before the end of October.

NO NEWS FROM PORT ARTHUR.

London, Sept. 28.—Indications point to the imminence of a forward movement of the Japanese armies against the Russians at Tie Pass, Siminlin and Mukden. Gen. Kuropatkin is fortifying Fakoman northeast of Mukden, in order that he may be prepared for the contingency of the evacuation of Siminlin. Reports of a naval engagement at the southeastern extremity of Sakhalin are not verified. To the contrary, it is believed the Vladivostok squadron remains in the harbor.

There is no news from Port Arthur.

N.C. & STL. EMPLOYES TO BE CARRIED FREE

Generous Offer Made by the Railroad.
Sleeper to Run Every Week Hereafter
For Benefit of the Road Employees.

PADUCAH MEN ARE INCLUDED

Free transportation and sleeping accommodations between Nashville and St. Louis have been arranged for all employees of the Nashville, Chattanooga & St. Louis Railway.

Beginning Tuesday next a tourist sleeping car exclusively for use of employees of the road will be run to St. Louis every Tuesday night. It will leave St. Louis returning every Saturday night. Paducah employees can reserve berths by wire and board the sleeper at Hollow Rock Junction.

Employees of the road desiring to make the trip must make application in advance through their foreman or supervisor. All applications, when approved, will be forwarded to the head offices and space reserved for as many as can be accommodated. The car is a large one and has thirty-two berths. By carrying that many each week many employees will have the opportunity to see the fair before it closes.

This announcement will be welcome news to employees of the road, as it was thought for a time that no more passes would be given employees. As a matter of fact, the Illinois Central, with which the Nashville, Chattanooga & St. Louis connects for St. Louis, some time ago announced that no more passes would be given to St. Louis. As a result of that effect has been strictly complied with since. This forced the Nashville, Chattanooga & St. Louis railway to cut off its employees as there was no way to get them to St. Louis.

President Thomas was not to be closed off by the action of the Illinois Central. When he decided to put the train on the Illinois Central quickly volunteered to move the car between Martin and St. Louis.

The first will be made, as stated, leaving Tuesday. Only bona fide employees will be taken. This does not include their families, because of the United accommodations. If it were his own line all the way Maj. Thomas would doubtless give families of all employees free transportation, but probably feels that he has gone as far as he can in asking for the one car over the connecting line.

ASSISTANT HERE

MR. NEUFFER, OF CHICAGO,
VISITS LOCAL SHOPS.

Mr. J. G. Neuffer, assistant superintendent of machinery of the Illinois Central, is in the city today looking over the local shops.

The Paducah shops have a great deal of work on hand, especially the wood working department where an additional force of fifty men was this week added. The machine shops are also rushed with work and the officials are keeping close tabs on all mechanical departments.

Mr. Neuffer will probably go south from here and look after the southern shops.

CROP CONDITIONS IN COUNTRY AND STATE

Favorable Temperature Reported in Many Places.

Late Tobacco in Kentucky Has Improved a Great Deal This Week.

FARM WORK IS WELL UP

Washington, D. C., Sept. 28.—The weather bureau's weekly summary of crop conditions is as follows:

In the central valleys and southern districts favorable temperature prevailed during the week. The rainfall was unusually distributed, being excessive in portions of the Gulf States and Oklahoma.

In the principal corn producing states west of the Mississippi river late corn has experienced favorable weather conditions, and the crop is generally maturing rapidly. East of the Mississippi river late corn has ripened slowly on account of cool weather. While it is practically safe in the south, it requires one or two weeks more in the north. Frosts caused some injury to corn in the northeastern part of this and considerable damage in small towns.

The objection has been raised with the K. I. T. League that the towns are

so far apart and that the majority of them are not good baseball towns, while one of them do not play Sunday ball.

TO CAIRO

SUPERINTENDENT EGAN IN SPECTING THIS DIVISION

Superintendent A. H. Egan, of the Louisville division of the Illinois Central, was in the city last night and today on business, and left this morning at 9:30 o'clock for Cairo on business.

The business on the Louisville division and Cairo, extension to enormous and the officials are watching it with keen interest to avoid any possible delays to movements of trains. The Cairo extension is an important section of the road and much freight is handled over it.

Mr. Egan will return to the city tonight after an inspection of that division. The local freight condition is astonishing and daily hundreds of cars are handled over the division. The local yardmaster has all the work he can do and "then some more" and the clerks are kept constantly at work day and night.

NOTICE.

On Monday, the 15th day of October, 1904, at 10 o'clock a. m., at our office, we will offer for sale to the highest bidder, at public outcry, three 5 per cent. 30-year Consolidated First Mortgage Bonds of the Paducah City Railway, for one thousand (\$1,000) dollars each. Terms cash. Further particulars made known at sale.

ONLY BRUISED

Miss Flora Nall in the Knoxville Week.

She Is a Sister of Mrs. Van Culin and Is Popular Here.

The following from yesterday's Louisville Times will be of interest here as the young lady mentioned, Miss Flora Nall, is a sister of Mrs. David Van Culin, and frequently visits in Paducah where she is very popular.

"Vol. I. B. Nall received information today of the narrow escape of his daughter, Miss Flora, who was on the Southern train wrecked near Newmarket, Tenn. Her cousin, Mrs. Bain Richardson, of Jacksonville, Fla., accompanied her on a visit to Mrs. Harry Shanks, of Knoxville, Tenn. Mrs. Richardson was taken ill with malaria fever. She was just well enough to leave for her home with her husband, Mr. Bainbridge Richardson, but requested Miss Flora Nall to return with her as she was so weak. They took the ill-fated train, but luckily were in the sleeper and received only a shock as the two trains came together. Their baggage was in the smash up and will probably be lost. Mrs. Shanks, who is a sister of Miss Nall, heard of the terrible wreck and knew they were on that train and her anguish until news came from the party that they were safe, may be imagined."

ACRESES.

W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an aches to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment; I got a 50¢ size and it cured my leg. It is the best liniment in the world."

Late tobacco has improved considerably and the crop as a whole will be somewhat better than expected. Cuttings progressed fairly well during the week, and that in the barns is curing nicely.

Corn has ripened slowly and harvesting has been correspondingly slow. It is quite irregular, some early fields being unusually fine, but much of the late is very poor. The total yield will be less than expected and the quality not as good.

Considerable plowing was done during the week, and some wheat and rye sown but more rain is needed to facilitate the work.

Irish and sweet potatoes are generally good but gardens have dried out in many places.

Clover seed is being sown, and only a fair yield reported. Sorghum is being sown with satisfactory results.

Apples have continued to deteriorate and the yield is poor. Peaches are better, but very irregular.

Farm work is generally well up.

ALWAYS ON TIME

Tainted Blood

Columbus, Ohio, May 19, 1903.
Some four years ago I was suffering from impure blood and a general run-down condition of the system. I had no appetite, was losing flesh, and had an all-gone tired feeling that made me miserable. I began the use of S. S. S., and after taking seven or eight bottles my skin was cleared of all eruptions and took on a ruddy, healthy glow that assured me that my blood had been restored to its normal, healthy condition. My appetite was restored, as I could eat anything put before me, and as I regained my appetite increased in weight, and that "tired feeling" which worried me so much disappeared, and I was once again my old self. I heartily recommend S. S. S. as the best blood purifier and tonic made, and strongly advise its use to all those in need of such medicine. VICTOR STRUMINS, Cor. Hartman and Washington Aves.

Wheeling, W. Va., May 28, 1903.
My system was run down and my joints ached and pained considerably. I had used S. S. S. before and knew what it was, so I purchased a bottle of it and have taken several bottles and the aches and pains are gone, my blood has been cleared and my general health built up. I can testify to it as a blood purifier and tonic.

TOBACCO SALES

GOOD OFFERINGS AND SATISFACTORIES PRICES PREVAIL TODAY.

The regular tobacco sales are on today in Paducah, with about the usual number of offerings and good prices. The sales today and tomorrow may reach 400 hogsheads.

Next week there will be no sales, as the tobacco men have agreed to hold none in order that those who want to visit the World's Fair may do so. It is likely that quite a number of them will avail themselves of the opportunity to leave, which is the first they have had.

CAPITAL SITE

Sixty Five Legislators Favor New One.

Seventeen Opposed and the Others Are Not Heard From.

Sixty-five members of the general assembly out of eighty-two who have gone on record in reply to inquiries of the Commercial Club favor the enactment of a law by the legislature in extraordinary session to provide for the purchase of a new capital site, says the Courier-Journal. The remaining seventeen members who have been heard from express themselves unfavorably, and a further poll of the legislature will be secured by addressing a second letter to the members who have not answered the first. The total number in both houses is 138.

From the encouragement which has been received, the Commercial Club is strongly in favor of securing a special delegation to Frankfort to wait on the governor, asking him to call the legislature in extraordinary session. If the results from the second letters are as successful as the first have been, the club will take further action on the matter, and will throw its influence in favor of calling the representatives and state senators to Frankfort. A clear majority in each house is necessary to make the changes proposed, and it is believed that they can be secured President H. A. McDowell said yesterday afternoon.

"We will send a second letter at once to all members who have not answered, and when it shall be found that the club will be able to give the governor a reasonable assurance of the success of the bill, a committee will be appointed to go to Frankfort and present the matter. From present indications, the outlook is bright."

AT FRISCO

RHODESBURFORD FURNITURE CO. OPENS A WAREHOUSE AT THE GOLDEN GATE.

Mr. S. J. Burford, of Louisville, of the Rhodes Burford company, has returned from a trip to San Francisco, where he arranged to open a warehouse on October 15 for the firm's Oriental importations. This is one of the most important steps ever taken by this progressive company, which has a store in Paducah and a half-hundred in the south and west, and will enable them to sell products from China and Japan much cheaper as a consequence.

The warehouse will be a mammoth structure, and will have a capacity for storage unequalled by any similar house in San Francisco. By importing matting, rugs, bala-bags and other articles from the Orient direct, Rhodes-Burford company will be in a position to more than compete with those firms which get their imports through New York jobbers.

Mr. Burford says that the California warehouse will be the firm's distributing point for all imported goods of an Oriental character, and that where his house formerly imported a few hundred pieces at a time, it will now bring goods from China and Japan by the shipload.

A PISTOL

IS WHAT KILLED MARSHAL AT JOPPA, ILL.

Further details of the accidental death at Joppa, Ill., of Town Marshal James W. Johnson, are that the deceased was shot with a revolver. He and a colored man had swapped revolvers, and as the latter handled the former his newly acquired property the muzzle was toward Mr. Johnson, and by some unaccountable touch or grip of the trigger by the colored man the piece was discharged, the ball taking effect in the region of the heart and causing death within five minutes.

WORK ON BIG TANK.

The work on the big 62,000 gallon water tank near the old dispatching offices in the local Illinois Central south yards, is progressing nicely and the foundation will be finished today or tomorrow and the actual work of putting up the tank will then begin.

The tank is one of the largest on the division and will greatly facilitate the movement of trains, the through engines not being forced to go to the shops for water. The cooling and watering can be done right at the shops and this is one improvement which will save the road much time and money in the future.

MUCH CONFUSION OVER REGISTRATION

The Democratic Political Legislation Causes Trouble.

It is uncertain thus far what the courts will decide relative to the new law.

MANY INQUIRIES ARE MADE

Frankfort, Ky., Sept. 28.—Many queries are coming to state officials here regarding the new registration law which is operative for the first time at the October registration next week. There is quite a difference of opinion as to whether the certificate of registration which is to be issued by the registration officials should contain the names of all of the precinct officers of election or only that of the clerk of the precinct in which it is issued. In many of the counties the certificates have been printed with only space for the clerk to sign his name, while in others space has been left for all of the precinct officers to sign. It is urged that the legislature did not contemplate having the certificate signed by more than one of the officers, though issued in the name of all, as it would be unnecessary and requires too much time to have all four officers attach their signature to each paper. Attorney General Hayes thinks all should sign the certificate.

Conductor Mollinix was seen at the train this morning by a reporter and stated: "I first saw the negro a few miles up the road ahead of Eddyville and he paid me thirty-five cents to ride to Eddyville. After Eddyville was left I began working my train and at another station I came upon Lightfoot again. He was seated in the colored compartment and stated he had paid his fare. When I told him he had to get off or pay he whipped out a big pistol and tried to shoot me. In the other hand he had a large knife and seemed to be intended using them I grabbed him. The same time Joe Mosley, colored, who works up colored excursions for the road, and who was in the coach at the time, grabbed the negro and the two of us overpowered him and took his weapon away. Mosley guarded him until Peilinix was reached when he was turned over to Officers Singery and Wood.

Mr. Mollinix ran on train No. 131, the Louisville and Fallon accommodation train and the foreman on the train stated that he had fired Lightfoot off his engine tank at Dawson and it is supposed he rode the blind baggage until he went into the car and tried to onto the conductor.

Lightfoot announced in police court that he wanted to plead guilty; that he was drinking and really had acted rather ugly. It gave his name as Lightfoot and Judge Sanders stuck him for \$20 and costs.

THE COUNTY SUPERINTENDENT WAITING FOR COURT DECISION.

County School Superintendent A. M. Ragdale, against whom an injunction suit was filed by trustees in school district 26 to prevent him from removing them from office and appointing successors, stated today that he had not removed them or made appointment of successors as the court had not passed on the injunction suit fully.

Judge Reed stated that he would render a decision in the case on his return from St. Louis and I am waiting until he returns before I act," the superintendent stated. "I think the court will decide in my favor."

It will be remembered a controversy was started by the superintendent and the trustees over the removal of the school house, and the superintendent threatened to remove them.

HAD A GUN

Bad Negro Arrested Aboard an I. C. Train Last Evening.

Brought to the City For Trying to Shoot Conductor Mollinix.

A negro giving the name of Jordon Lightfoot, alias Sam Jones, was taken from an Illinois Central train here last evening early bound hand and foot and locked up on a charge of trying to kill Conductor George Mollinix, above the city the negro drew a 45-caliber gun and attempted to shoot the conductor, the trigger, it is said, refusing to work.

He was seized by passengers and the conductor, and bound hand and foot to a seat, after his pistol had been taken from him, and 26 cartridges for his pistol were found on him. When the train reached Paducah about 7 p.m. the negro was turned over to Officers Singery and Dick Wood, at the Illinois Central depot, and taken to the city hall. He was there recognized as the negro who shot at Officer William Johnson near Ninth and Court streets about five years ago while trying to escape for theft. He was caught in Mt. Vernon, Ind., and brought back being given one year. He then said his name was Sam Jones, but now claims it is Jordon Lightfoot.

Conductor Mollinix was seen at the train this morning by a reporter and stated: "I first saw the negro a few miles up the road ahead of Eddyville and he paid me thirty-five cents to ride to Eddyville. GATE WORKING

THE N. C. & S. L. STARTS ITS BEFORE THE ILLINOIS CENTRAL.

The Nashville, Chattanooga & St. Louis and Illinois Central roads have been engaged in a little good natured competition unknown to the general public.

It was in regard to starting in operation the city automatic railroad gates both roads are putting in here. The I. C. shipped the gates several days before the N. C. road but was delayed in putting the gates in operation by failure of piping to arrive.

The I. C. announced that it would have its Broadway gate working Monday but failed to do so and the N. C. announced also that it would have its gate at the depot working as soon as if not sooner than the I. C. Broadway gate, and it did. The N. C. & S. L. road is working today and the Broadway I. C. gate will not be in actual service before night.

The Tennessee street gate of the I. C. is being fitted out, the piping having come today. These gates will be in service by the last of the week it is stated. The N. C. & S. L. road is installing a gate at Eleventh and Norton and will have this gate working in a few days.

ADMIRAL CHARACTERISTICS.

No more fitting nor stronger comment could be made upon the president's letter of acceptance than that given in the following few words expressed by a woman who takes but little interest in politics, but who was prevailed upon to read this splendid paper of the republican candidate for president. "Tremendously in earnest and absolutely straightforward!" This expresses fully, not only the content of the letter itself, but the personal characteristics of the writer. No fault should be found with the candidate for president or with a president himself who is always "tremendously in earnest" and who is "absolutely straightforward." Those few words include every attribute that a man need possess to retain the confidence of his fellowmen and the respect of the people over whose destinies he is for the time placed. A man who is always absolutely straightforward and who possesses openness, frankness and honesty and is at the same time tremendously in earnest will always do the right thing at the right time, according to his best judgment and sincere convictions; and therein is the power and strength of our president that he does possess at all times most sincere convictions and these are accompanied by a rare judgment amounting almost to an infallible intuition, bringing about that tremendous earnestness which we so much admire in public men who are placed in control of vast interests whether in business or in government, and far from making a man who possesses such characteristics unsafe and unreliable, it would seem that such a man must be the very safest man, because he will always be true not only to his own interests but to the interests of his country and his people. He will conserve the rights of the American citizen both at home and abroad and without any act or utterance which he wishes to have concealed, make his administration an open book to every eye of which we can point with honor and pride.

Such a man and such characteristics are found in the personality of Theodore Roosevelt. He is gaining strength every day with the American people in every state of the Union. Even in one section where many of his acts are despised, he has the respect of a very large class who know that in his treatment of

the most complicated question which has been before the people of any nation in any age he is absolutely straightforward and sincere, meaning only to do justice to every man, without regard to race, color or condition. Such have been the intentions of Theodore Roosevelt in the past and such will continue to be his intentions in the future, and with such intentions and the courage to carry out such convictions there need be no fear of injury to commercial interests or to any social conditions in any part of the great and glorious land.

How different it is with the democratic nominee, who seems to grow weaker and weaker with his party every time he makes a public utterance. Judge Parker's letter of acceptance will do him much harm as a letter possibly could do a man who never had any show at any stage of the game.

PARKER'S AMIABILITY.

Nobody has denied to Judge Parker the possession of an extremely amiable disposition. He has a kindly feeling for all men, including political rascals. If he had not he could not have maintained intimate friendly relations with "Dave" Hill and "Blue-Eyed" Billy Sheehan for thirty or forty years, and could not have consented to have "Pete" McCormick with him. His cordial relations with "Tom" Figgatt associated with him in the present campaign he dislikes to take harsh views of, especially if he were to be elected the mascot of the party would not suffer much harm at his hands.

George Ade, the author and playwright seems to have sized up the Democratic candidate with that uncaring insight, which is his eminent characteristic, "I heard a story," he said recently, "out in Indiana which seems to fit him. An old farmer said: 'I never seen yonder feller Parker, and I never heard him speak, but, judging from accounts that I've read of his doings, he's just about the sort of a chap that folks would take to a Sunday school picture to hang up the swing for the children.' "

TARIFF AND IMPORTERS.

The Importer has come to see and to acknowledge that he is far better off under Republican administration under the operation of a tariff law which gives employment to our people which gives almost unlimited purchasing power than when duties are low and wages are low, with a consequent diminution of money with which to buy any thing beyond the barest necessities of life. Consequently we find that a large number of our importers along the Atlantic seaboard are rallying to the banner of Roosevelt and Fairbanks and acknowledging openly that they propose to vote for the Republican candidates on the 8th of next November.

Capt. J. D. Fuller and W. P. Hall, of Memphis, are in the city looking over the boats that are for sale, and may purchase a steamer before they return. They are extensively interested in the steamer business on the Mississippi and desirous of a boat for the river. Incidentally they bid on the steamer that started today, although they took her over beforehand and decided they could not use her. They went over to the wharf and looked over the John Summers, but have as yet made no purchase.

The Paducah Board of education has never complied with the law requiring a trust officer. There are enrolled here less than half the number of pupils the state is paying the city per capita of and it is more than likely many children here are not going to school whom the law requires to attend. In Greenbush the truant officer found 350 pupils out of school contrary to law.

There were two court decisions yesterday at Frankfort concerning out opinions of Attorney General Hays. By the way, there are few attorneys of any ability in the state who do not laugh heartily at the opinions rendered by this alleged lawyer, whom the democrats put at the head of the law department of the state.

President Roosevelt's letter of acceptance should be read by every American voter. The Republican party is willing to abide by the judgment of the voter who will intelligently consider that document.

Ever hear of a Democrat asking for support on account of his party's record?

October is the latest month in the year in which Democratic victories.

Republicans evade no issue; Democrats straddle on all issues.

THE DICK FOWLER
TO LEAVE TRADEFast Steamer to be Sold by the
Fowler Company.

A New Boat Will Be Built For the
Paducah-Cairo Trade as Soon
as Possible.

MEMPHIS MEN AFTER A BOAT

The handsome Dick Fowler may never again be seen in the Cairo and Paducah trade. It was little thought when she went to the bank a few weeks ago on account of low water, that it might be her last trip in the trade, but it is not only possible, but probable.

The Fowler is now for sale, Capt. Joe Fowler this morning verified the report that her owner wanted to sell her, and stated that when she was sold he would be ready to make a more definite announcement in regard to the future trade between Paducah and Cairo.

It is understood in river circles that the Fowler company will build a smaller boat for the trade. Not only do they need a light draught boat on account of the annual low water season, but because the new railroad now in operation between Paducah and Cairo has undoubtedly changed conditions to some extent.

It is said the new steamer will have a forty foot beam. It will no doubt be an easy matter to sell the Dick Fowler as there is not a better boat nor a faster boat on the Ohio river for her size.

The Dick Fowler has been a favorite in these waters for many years, taking the place of the old Memphis and Cairo.

Capt. Joe Fowler said today that the company had received offers for her, but had not sold her. The new boat will be able to run to Cairo during the lowest stages of the river.

Capt. J. D. Fuller and W. P. Hall, of Memphis, are in the city looking over the boats that are for sale, and may purchase a steamer before they return. They are extensively interested in the steamer business on the Mississippi and desirous of a boat for the river. Incidentally they bid on the steamer that started today, although they took her over beforehand and decided they could not use her. They went over to the wharf and looked over the John Summers, but have as yet made no purchase.

Capt. J. D. Fuller many years ago in Paducah built the Ruth, a new boat turned out complete. Both are well known in Paducah.

Captain Trigg Buys the Chattanooga
For the Tennessee River
Trade.

HE PAYS \$7,500 FOR HER

The steamer Chattanooga, which was broken in two by running onto the rocks at Big Chain in Tennessee river, was this morning at 10:35 o'clock sold by Deputy U. S. Marshal George Saunderson to J. N. Trigg, of the Chattanooga Steamboat Co., one of the owners of the boat, for \$7,500, he being the highest bidder. The boat was sold by order of the court to satisfy claims against her and bidding was lively for a time.

The sale had been advertised at 10 o'clock, but as early as 1 o'clock steamboatmen were about the boat, which had been moored at the wharf at the foot of Broadway. Among the prominent men here to attend the sale were: Captain Ed. Howard, of the Jeffersonshire shippards; J. D. Fuller and W. P. Hall, prominent stave timber men of Memphis; J. N. Trigg, president of the Chattanooga Steamboat Co.; W. T. Wilkey, of the Chattanooga Transportation Co.; Captain Frank Cassidy, of Cairo; Garver Andrews, of Chattanooga, and local steamboat men.

Deputy U. S. Marshal Saunderson read the order of sale and opened the sale at 10 o'clock sharp. The first bidder was Mr. Andrews, who bid \$2,500. Captain John S. Summers bid \$1,000 and this was followed by bid of \$1,000 by Captain Howard. Captain Summers bid \$4,500 and dropped off for a time. Captain Howard bid \$6,000 and then raised it \$500 when bidding lagged. Captain Trigg stepped in and bid \$6,000 and Captain

STRUCK A CAR

ONE OF ROBERTSON'S ICE WAGONS HIT AND THE DRIVER HURT.

A Triuline street car and an ice wagon collided this morning near Tenth and Triuline streets, and while the wagon was turned over, neither it nor the car was damaged seriously.

James Bland, the driver, was not so fortunate. He was thrown out and had a shoulder dislocated. Drs. Robertson and Boyer attended him.

THE HEAVY WEIGHT WATER DAMAGED STOCK

Of clothing, shoes, underwear, etc., will now be closed out without delay—light weight goods about all sold.

There never was such a chance to buy and may never be again. The whole stock has been marked down to prices never heard of before.

BIG MEETING TOMORROW.

The regular meeting of the Elks' Lodge tomorrow night promises to be one of the biggest in the history of the order. The new building for the Lodge is to be voted on, and whether or not the Lodge will build the coming year may depend on the vote. The project has remained in state quo for sometime because some of the Elks do not seem it advisable to build until they get more money.

RIVES

The two were vastly dissimilar. One, the younger, was clad in dark velvet, wore lace and a sword. His face was pale with the look of the scholar. The other, walking by his side, with saddlebags over his arm thrust through the bridle of a lean roomy nag, wore hunting dress, with a small cap. He looked to be turned thirty-five. His face was keen and sallow with Roman profile, and his eyes were deep set under overhanging brows. For the rest he moved his spare body awkwardly, stoically, with a rawboned stoop of shoulders, as one at happier ease in the woods than the street. Both bowed gravely as they came up, the face of the horseman sounding the group and brightening suddenly with a flash of smile at sight of Anne.

He passed on, but the younger turned back, nothing but for a moment of chat.

"Crossing of the ball tomorrow, I'll swear!" he laughed. "Are the furies all close?"

"Tell us, Mr. Jefferson," cried Betsy Hynd, "Have you seen the new come beauties? They say Lady Lummore is lovelier than her daughters."

"I have been away for a fortnight," he answered, "and cannot say. I would I could say 'Aye,' 'tis but trifling bairns; but 'twould relieve much anxiety."

"'Tis the dreadful uncertainties of you unseelie livers," Anne countered sharply, "that keeps us poor maids in terror."

"'Tis sold," put in Pauling, "that his excellency will publish a new code for the palace etiquette. Think of it! Just like a real court! There is to be a chamberlain, and all gentlemen are to be summoned before the portraits of the king and queen!"

The young man looked dark. "Would be kept to his court etiquette," he explained. "See you the great yonder?"

All turned their gaze toward the lower end of the street where sat the new two storied capitol, with its tall cupola and clock. Generally there were to be seen bairns, singly or in couples, passing in or out. Now the space before it was covered with ranks of men, talking, gesturing, walking from group to group. One could almost imagine an accompanying hum, like the sound of a distant bee swarm. As they gazed the knots separated and moved slowly toward one of the side doors.

"They enter the left," said Anne. "It's not the usual sitting of the house, then. Has the governor summoned them to the council chamber? And for what?"

"For what?" repeated Jefferson wistfully. "For the resolves, printed today in the gazette, appointing a day of prayer and fasting because of the shaming of the port of Boston. His excellency—I had like to have said 'his majesty'—is in a fine rage. The Virginians are in no mood to bear more bunting. One can scarce say what will befall if he dissolve them!"

"There was well nigh a wall at this," moaned Mistress Hynd, "then there will be no ball?"

Jefferson smiled, but a spot of tempestuous red burned Anne's cheek as she flung up her head. "If the governor clipt all save ten of Virginia's bairns into the prison yonder," she said slowly, "the ten would give his lady the ball of welcome. They are Virginians."

"See," said Jefferson. "He is coming."

At the end of the broad reach which spited Duke of Gloucester street midway, nearly opposite them, stood the palace, brick red, gaudy with cresters, lifting its tall lantern above gardeons laid in the Italian fashion. In shapes of stars and horseshoes. Now its front spring suddenly into action. A great chariot, very splendid, with viceroy regal trappings of gold and leather, whirled up at the steps, and two figures entered it. The vermillion livered outriders broke into gallop, and the team of six milk white horses waded through the many acres ground sown with silver grass and studded with mulberry and catalpa trunks, like gnarled, one-legged dancers, and swept at a smart trot into Duke of Gloucester street.

His excellency Lord Dunmore, red and thick necked, with Captain Foy, his cold featured all, beside him, rode to the capitol.

The splendid chariot, brought from London to awe the Virginians, went at speed along a way suddenly grown a-tumble. The unwanted summuns to the council chamber had gone abroad, and Williamsburg, full to the brim with rich planters from the valleys of the Potomac, the Appalachians and the James, now at their town houses with their families for court session, were come forth to wait and to speculate upon the royal governor's wrath. The road was filling with coaches and fours bearing the nobles and their dames and with sparkish young gentlemen passing on dancing rigs. The pave of old Binton church, wherein of a Sunday sat His excellency in his pew under the canopy, was bright with maidens in satin and lace, with beaux showing silken culverns and powdered wigs and with students in collegiate gaudiness of a variety by no means ever filling their bolls.

Stout old Governor Buteon had got many a cheer in the old days as he rode

"Crossing of the ball tomorrow, I'll swear!"

LOST HIS MIND.

Former Speaker Henderson Retires From Public Life.

Des Moines, Ia., Sept. 27.—The Republicans of this state have learned with great sorrow that Colonel David H. Henderson, who retired from congress and the speakership of the house two years ago, has suffered so greatly from ill health and the pain of his old army wound that his mind has become utterly failed him. He will live the remainder of his years in retirement with his daughter, the Rev. John Murray, earl of Dunmore, there had come to be many a wary look. He had learned Taryton under Lord Duke, as had the king, and nature had made him a Scotch burgher to begin with. Diplomacy to him meant the heavy hand, and clarity was as far off as religion.

He rode along this afternoon swaying, abrupt and impulsive, as usual, and now with an extra set to his heavy lantern jaw that boded no good.

Reeling unrationed was in the low courtesy that Mistress Hynd swept him

into his fine chariot. He was popular, and departed this life in the odor of likker, to receive a statue on William and Mary common. But for the new governor, John Murray, earl of Dunmore, there had come to be many a wary look. He had learned Taryton under Lord Duke, as had the king, and nature had made him a Scotch burgher to begin with. Diplomacy to him meant the heavy hand, and clarity was as far off as religion.

The primary cause of his mental breakdown is found in his loss of a leg due to an army wound. This caused him much suffering as the leg has been amputated several times. The great pain with the fact of his high living in Washington while speaker, broke him down. But for the fact that he was a man of great natural strength he would have given up years ago.

When he announced his retirement two years ago, there was much mystery as to why he did it in the manner he pursued. He had just attended a conference of the leading politicians in this city and had someone with much enthusiasm that he would defend the platform just adopted unanimously by the Iowa Republicans, including the tariff plank to which he had given his support. Then he went home and immediately wrote a declaration of his congressional nomination, basing his reason entirely on a statement that he could not stand on the state platform. His friends then felt that the incident marked a failing mind, and this is now confirmed.

BROOMCORN JOHNNIES.

Areola, Ill., Sept. 16. Areola is the Mecca of broomcorn "Johnnies," and no Muscovite turns more regularly or devoutly to make his pilgrimage than the old time broomcorn cutter turns to this city about the 1st of September, several weeks before the brush is ready to harvest, bands are arriving and nearly every state in the union is represented in this odd congress of broomcorn helpers. Just now Areola is interesting to behold, with its army of employed and unemployed labor. The bakers and there are many of them, even though there are many available peeling spot around the railroad park, and line both sides of Main street for a block each way from the depot. Some of these cutters have been coming to Areola for twenty years, and have assisted in gathering every crop of brush grown in that time, just at the west edge of town is a camp of nearly 200 men. Bands are paid \$1.25 a day and board, and there is no lack of them this year.

12,000 ARROWS

Pierced This Man's Body While He Held Services.

London, Sept. 28.—Srinat Murungsa Swangjal, a pious Hindu devotee, says the Penang Gazette, has conducted the Kavady ceremony with 12,000 silver arrows pierced in his body. About ten men were engaged fixing the arrows in the unfortunate's body from 10 a. m. to 2:30 p. m. All being done the unfortunate sat on a pair of slippers, spiked with iron, and proceeded from the Amman temple, owned by the Indian community to the new Kandaswamy temple, erected by the Jaffnes Tamils, followed by about 1,000 people who sang Devaram and other religious hymns. At the temple entrance milk and water from young coconuts was poured on his feet. Then he was relieved of all the arrows. He did a similar thing some time ago in Penang with 10,000 arrows.

NOVELIST TO WED.

George Barr McCutcheon to Marry An Attractive Widow.

Chicago, Ill., Sept. 27.—George Barr McCutcheon, the novelist, and Mrs. Marie Fay, a young widow residing in Highland park, will be married next week. The formal announcement has not been made, but friends of the couple have been told of the pretty romance in the life of the man who has won fame by writing many romances.

Mrs. Fay owns a handsome home in Highland park, and is popular in North Shore society. She has another home in Oak Park. After the marriage, which will be a quiet affair, the couple will take a trip to Europe. Upon their return they will reside in Oak Park.

Use Shoffner's Sure Cure

The Great Tonic and Blood Purifier—Cures Indigestion, Dyspepsia and Catarrh.

It is a trite and true saying that "the blood is the life." Now where does the blood come from? Everybody knows, or should know, that it comes from the nutritive elements extracted by the stomach from the food we eat. If the digestive organs do not perform their functions by reason of disease germs, there is no nutrition extracted, and the food might better be thrown in the dump to decay and breed germs in the open air than to remain in the stomach and become a rotten, putrid mass, as it naturally does if there is no digestion. No disease germ can live and find lodgment in a human body that uses the Shoffner's Sure Cure. Price \$1.00.

PEACE SOON

Agreement in Central America is Reassuring

Steps Taken to Prevent Any More Insurrections.

Mobile, Ala., Sept. 28.—There is every prospect of permanent peace in Central America as the news brought here today by passengers from places in that country. Through the persistent efforts of Gen. Jose Santos Zelaya, president of Nicaragua, a peace congress has been held at Port of Tucito, a treaty adopted a proclamation issued to the public, and it is now confidently believed that insurrections will be promptly put down with an iron hand, and that one republic will not be invaded by its enemies from another republic. In short, the frontiers of the different republics will be closely guarded, and all dangerous and idle characters will be kept under surveillance and within safe bounds at all times.

Present at the convention were Manuel Bonilla, president of Honduras; P. Jose Escalón, president of El Salvador; President Zelaya, of Nicaragua, and Maximino Soto Hall, representing President Manuel Estrada, of Guatemala. These republics practically comprise Central America. The distinguished gentlemen discussed the question of permanent peace carefully and deliberately, and the means of bringing it about. The deliberations resulted in the drawing up of a treaty satisfactorily to all in its terms and one likely to be lived up to in all of its many good features by all law-abiding citizens. The details of this treaty were not given out to the public. One of the agreements was that all matters should be left to arbitration.

BALL GAMES

HAVE BEEN ARRANGED BETWEEN PADUCAH AND CLINTON.

Arrangements have been made between Paducah professionals and the Clinton, Ky., team for a match game of ball Friday and Saturday to be played here.

The Clinton boys have Alexander, who pitched for Hopkinsville this season, to pitch and will use Walters and Deville, of the Delta League, in the field. Crittenden, of the Nashville Southern League, will also play with the Clinton team. They have a pitcher's name Ashby who claims he will get a try out with Paducah next season and also a fielder named Halliday who will get a try out here.

Fits of abstraction are of frequent occurrence among pickpockets.

KENTUCKY NEWS TOLD IN PARAGRAPHS

DEATH AT BENTON.

Benton, Ky., September 28.—Mrs. Josh Treas, of Harvey, dropped dead from heart failure, 70 years of age. Her husband is one of the most prominent farmers of this section.

TO WED AT WORLD'S FAIR.

Owensboro, Ky., September 28.—Mr. and Mrs. J. J. Hill announce the approaching marriage of their daughter, Miss Nettie Bertha Hill, to Mr. Thomas Ross Morton. The ceremony will take place October 12 at 8:30 p.m., in the Kentucky Building at the World's Fair, St. Louis.

The ceremony will be performed by the Rev. W. A. Bomford, of Owensboro, who is Miss Hill's pastor.

The wedding party will leave here on October 11 for St. Louis, and will be made up of the following: Miss Nettie Bertha Hill; Mr. Thomas Ross Morton; Miss Ottie Gates, Chicago; Miss Charlotte Badger, Birmingham, Ala.; Mr. George Thompson, Lafayette, Ind.; Mrs. Adam Kellar, and Miss Blanche Keller, Mt. J. J. Hill, Master Grover Hill, Mr. and Mrs. Robert Wayne, Mr. W. C. Morton, Mr. Henry Morton, Kenneth Frederick, William Murphy, Arch Smith, William Reuo, Gus Slanahan, E. Pettit Cox, of Owensboro.

FOUR ESCAPED.

Mayfield, Ky., September 28.—Quite a number of persons who have been convicted of selling whiskey in violation of the local option law were put in charge of Mr. Newt Jeffrey to be worked in graveling one of the county roads leading north of here. Monday they took advantage of a good opportunity and four of them made their escape. They were John James Clarence Wilford, Bailey Aker and George Tilley. So far they have not been recaptured.

DEATH IN GRAVES.

Mayfield, Ky., September 28.—Mrs. Lena Nall, wife of Mr. Ellis Nall, of near Folsomdale, died of consumption. She was 23 years old, and leaves a husband and two children.

HAS SMALLPOX.

Mayfield, Ky., September 28.—Mr. Jeff D. Alcock was taken with smallpox Monday in a mild form. He had about come to the conclusion that he would not take it as it had been so long since no was exposed, but it finally made its appearance. They think he will not be confined a bit more very long, as it is in such a mild form that he will soon again.

ACTIVE CAMPAIGN.

Bowling Green, Ky., September 28.—The Republicans of the Third Congressional district will hold a very important meeting in this city on Wednesday afternoon. Chairman R. P. Ernst will be in attendance. Letters have been sent out over the district to some of the most prominent Republicans in this part of the state requesting their attendance. All the plans will be laid for the campaign.

STORM AT HENDERSON.

Henderson, Ky., September 28.—A terrific rain, wind and electrical storm visited this city Tuesday. Several business houses were flooded and stocks damaged. The cellar of Arnold Kuhn's store was five feet deep in water, and his loss is estimated at \$3,000. The sidewalks have caved in, in several places on the principal streets.

Reports received from Robards, this county, are to the effect that M. V. Denton's storehouse was damaged by the wind and that Cox's livery stable was blown down.

MORE TROUBLE.

Owensboro, Ky., September 28.—An important discovery in connection with the new registration law has been made here. It is that in stating precincts containing incorporated towns the officers of election have to be residents of such towns in order that they may conduct the registration. At least two of the incorporated towns in Daviess county have no white Republicans qualified to act as officers and the election commissioners are in a quandary.

\$3,000 LOSS IN BARN.

Marion, Ky., September 28.—The oak barn of Raymond Babb, ten miles from this place, on the Tain and Salem road, was struck by lightning and burned, with all its contents, including ten head of horses and mules. The estimated loss is \$3,000.

AUDITOR SUSTAINED.

Frankfort, Ky., Sept. 28.—Judge Carroll passed on the case of Superintendent of Public Instruction Eugene vs. Hager, auditor, by which it was sought to require the insurance commissioner and auditor to pay to the superintendent of

public instruction for the school fund over \$100,000 from taxes received from the department. He holds the revenue from this department not subject to the school fund tax and upholds the auditor's contention. An appeal will be taken. The judge holds, however, that the school fund is entitled to an appropriation of \$10,000 license taxes through this department.

SHOT BY ACCIDENT.

Owensboro, Ky., Sept. 28.—Nathan Clemmons was shot and fatally wounded by James Lewis, who was carelessly handling a gun. The bullet pierced both of Clemmons' thighs.

THE HOME WINS.

Frankfort, Ky., Sept. 28.—Judge Carroll rendered an opinion upholding the validity of the appropriation of \$15,000 for the Kentucky Children's Home Society and directing the auditor to pay the same. The case will be appealed.

WHY LYNCHING

IS NOT STOPPED IN THE SOUTH. ERN STATES.

Huntsville, Ala., Sept. 28.—Ben Hill, the third alleged lyncher to be placed on trial, was acquitted. The jury spent two hours on the case and reported a verdict of not guilty. The state was unable to prove that Hill took an active part in the lynching of Horace Maples as several witnesses testified that he was only a spectator.

SECRET EXPOSED.

Chicago Women Are Advised How to Be Attractive.

Chicago, Sept. 28.—Mrs. Linda Rose Wade has given away the secret. The oracle of the National Dressmakers convention has told "how to snare a man." Here is her recipe: "Be stunning," then she told them how to be stunning, if not beautiful. Here are some of the things she told them:

"Wear simple gowns, but be sure they are becoming. Show your charms. Wear modesty dictates where to stop. Wear low cut dresses if shoulders are skin are good. Pad if you are a human batwing; don't show the hooks. Be natural. In desperate cases try red. Don't pull your skirt tight unless... Be attractive in the morning. Don't let me catch you in 'dowdy' attire."

The class of twenty-five young women to whom Mrs. Wade confided these things left the fine arts building in a bunch seeking the method of "stunning" and the masculine promenades ahead into the park.

To these things Mrs. Wade added, "Study man. Never wear high heels except in the ballroom or on the stage. Don't be mannish. Play to man's hobbies. Don't always smile, be cross and bright occasionally."

NEW RECORD.

American War Vessel, in Night Practice, Does Remarkable Work.

Washington, Sept. 28.—Some sensational night shooting is being done by the North Atlantic squadron in target practice at Menemsha Flights.

Close inspection of developments in the Russo-Japanese war has given the general board the idea that many of the great naval battles of the future will be fought at night. Consequently the North Atlantic squadron has been ordered to do considerable night work and develop its gun pointers in the use of the searchlight.

Using the eight-inch guns, one of the battle ships made the remarkable score of eight hits out of nine shots at night. The target distance about a mile was illuminated by a searchlight, and the gunners used a special night sight.

What is more remarkable is that the ship was forging ahead in the open sea at ten knots.

SOCIETY AT RAT PIT.

Alex. Lee Hains, Sept. 28.—Fashionable society has taken to spending Sunday afternoons at the rat pit. Scores of handsomely dressed women may be seen among the audience, a large percentage of whom are American and English people. Mr. Harold of Chicago, was ejected at a recent performance for protesting against the brutality of the "bouts."

The fair spectators shriek with delight when a rat is tossed, but now and then the spectacle it a trifles too much for their nerves and they become hysterical. They are then borne screaming from the place and no one seems to be least upset by the incident. Nothing has been seen for years. The bull and tiger fights of Spain are respectfully mentioned.

AUDITOR SUSTAINED.

Frankfort, Ky., Sept. 28.—Judge Carroll passed on the case of Superintendent of Public Instruction Eugene vs. Hager, auditor, by which it was sought to require the insurance commissioner and auditor to pay to the superintendent of

MUCH TALK EVERYWHERE NOW

Mayor D. A. Yeler states that there is "no man in Paducah whom Chief of Police James Collins' clothes would fit."

In other words, that Chief Collins is the best there is, and will stay right where he is. The mayor does not mind words any longer in referring to the "good government" element. He says he will pay no attention to the resolutions passed Sunday, and will discharge or allow discharged no member of the police force over Sunday's performances.
